The News.

It were the sheerest nonsense to say the elections in those States which voted on the 6th had not gone against the conservative party, except the State of Maryland. As yet, the precise majorities are not known, nor is it definitely ascertained what has been the result in the Congressional districts, though it is safe to say the conservatives have lost nothing for they had nothing to lose.

It is in the State of Missouri, where so far as the majorities are concerned, it is enough to say the State has gone radical, and to wait for future developments to fix the actual majority. The contest in the State is between WILLIAMS and PARKER for School Superintendents, and it will be some time before the actual vote is known. In the Congressional districts we lose HUGHES, in the first, provided he cannot succeed in throwing out a large illegal vote cast after sundown in radical district. In the ninth district we gain Col. W. F. SWANSON, who beats ANDERSON, the negro whiner, and Unionist. In this district, we think Judge HUGHES, though it is scarcely safe to say so, in the confusion of the returns, and the worse confusion of radical swindling. In the fifth district, Gen. PATRICK is beaten by the traitor McCLELLAN.

Of Senators we are in possession of little information. In the Jackson, Cass and Bates district, the conservatives elect Mr. PAYNE. In St. Louis, they elect WORMEY and STANHOPE, and BUNYAN.

So far as heard from, the conservatives have elected 35 Representatives, and the Unionists 37.

But the gain in this State is large. Every county that was carried by the conservative Democrats, is a gain, and a large one, for they have gained the Supervisor of registration, and will be able to vote the people hereafter, even if the test oath be constitutional. This of itself is a large gain, if we have nothing more. And besides, all the counties that have defeated the Unionists will control in every department—the county court by and through which millions of the people's money will be saved. Of the 115 counties it is fair to hope that we shall carry one-third, and perhaps one-half, so that at the next trial, the Unionists will be easily beaten. True, if the Unionists shall have a decided majority in the Legislature, they will try to force upon us negro suffrage, and may do so for a time; but sooner or later, it will be repealed, or the negroes dismissed the State.

Although beaten, we are still hopeful. So long as the President will remain firm, and disregard all effort at intimidation, or fight if the traitors shall undertake to impeach him, we feel confident of the result. As he conquered the villains in Maryland and Louisiana, he will finally throttle them in the Union, and exterminate them everywhere. It is a contest in which they cannot survive. The North in the late elections, have had no opportunity of voting direct on the negro issue, because the party have either ignored the question, or so sugar-coated it as to conceal their real designs; and the deterioration in radical majorities indicates plainly enough that two years hence, when the question will be an open and uncoined one, the traitors will be voted down, if they shall not sooner conclude to arbitrate with the sword, in which event they will not merely sell their own destiny but that of the negro with them.

Let the friends be of good cheer. We all know that the expression just had is not the expression of the people of Missouri, and will never be, if an untrammelled vote shall ever be effected, which we by no means despair. Let's up and act. This is the sort of determination. Bull Run did not settle the light; nor must this struggle, in which we had one hundred and fifteen cut-throat Supervisors of registration, to assist in the dirty work of registration and swindling, and to assist them in such of their scoundrelism. If they are not entirely dismissed, a third or a half of them will be, and this will defeat the traitors.

In Maryland, at the close of our last paper, to all appearances the radicals had succeeded, by one quibble or another, in carrying their point. They had seized upon the appointees of Gov. SWANSON and the sheriff of the county and cast them into prison, and habeas corpus could not reach them in time to be of any service in the election; and by some means unknown to us, the Governor's party carried the State, from which we conclude that other and effectual means were resorted to to defeat the traitors in their design of disfranchising the people. Maryland is free. Let us thank God for it, and take courage to fight the villains to the better end in Missouri.

That worst of murderers and robbers, JOHN MCNEAL, is elected Sheriff of St. Louis county. So far as we have been able to notice, though BANCROFT, the head and front of the leader of the party of radicals, was not a candidate, every robber and murderer on the ticket has either been elected or received a larger vote than a less obnoxious individual.

JIM HENDERSON is done for, good. That negro-worshipper was beaten in his own county of Pike by 241, including the swindles of registration and the swindles at the polls. Poor Jim!

Fox beats old Greeley 9,500 votes only in the ninth Congressional district of New York. Only 9,500. Well, Greeley is getting a little old, and don't run so well as younger people.

Mr. McBRIDE elected to the Legislature from St. Louis county, is a Fenian. He was elected by the conservatives.

The President.

Late news from Washington is to the effect that the President is undismayed by the radical minority, and that, notwithstanding the failure to carry the elections, he is determined, as is his duty, to stand firmly to the work of reconstruction upon "my policy," which he can ever be expected to adopt. This is to the last degree gratifying, and is indeed cheering amid the rush of radical victories accomplished by fraud and villany in every State in which elections were held.

A dispatch from Washington of the 9th, says the President has discovered another of STANTON's dirty tricks, in withholding from him an important dispatch from Louisiana dated July 28, from Gen. BURN, in which he asked the President's views of the propriety of arresting the members of the old Convention. The Washington Republic calls on Mr. STANTON, in an official way, to explain the matter.

This is all well enough, so far as it goes. But the question with us, and the important one to the nation, is why the President does not put Mr. STANTON where he can do less harm, and where he would act for himself, and not for the government? That, it seems to us, is the policy he should pursue.

On the 10th of November, the President telegraphed Gen. THORNTON of Texas that he hoped the Legislature would pass the bill securing equal rights to all before the law. He redeclared his faith in the people, and assured the governor that the time would come when loyal representatives from the Southern States would be recognized.

Let us be hopeful, and trust to time to dispel the heavy cloud that has settled upon us.

St. Louis County.

The county of St. Louis, it will be seen by our returns, is divided on the Legislative ticket thus: 9 radical Unionists to 5 Union Conservatives. In the senate, we have 3, and the traitors 3, making 6 members for the conservatives, and 117 for the traitors. The ballot-box was kept pure, to use a phrase of our neighbor, in this wise, as described by the *Ansager des Westens*:

"At the moment we write this, the result of the election is not yet completely known, but one thing we already know, and that is that the radical leaders yesterday crowned their infamous work. In all the wards where the radicals could expect majorities, and where in fact they had them, voting was carried on with the greatest rapidity. In many of the radical districts at 12 o'clock, there were already 1,000 votes polled. Only in those districts where the conservatives have their majorities, and where in fact they had them, was the fact that they had them, voting was carried on with the greatest rapidity. In many of the radical districts at 12 o'clock, there were already 1,000 votes polled. Only in those districts where the conservatives have their majorities, and where in fact they had them, was the fact that they had them, voting was carried on with the greatest rapidity. In many of the radical districts at 12 o'clock, there were already 1,000 votes polled. Only in those districts where the conservatives have their majorities, and where in fact they had them, was the fact that they had them, voting was carried on with the greatest rapidity. In many of the radical districts at 12 o'clock, there were already 1,000 votes polled. Only in those districts where the conservatives have their majorities, and where in fact they had them, was the fact that they had them, voting was carried on with the greatest rapidity. In many of the radical districts at 12 o'clock, there were already 1,000 votes polled.
